4th OACPS-EC-UN-Habitat INTERNATIONAL TRIPARTITE CONFERENCE
6 - 8 JULY 2021, ONLINE

Jaime Royo-Olid

Senior Officer, EC Urban Development, Sustainable Transport and Digitalisation, European Union Delegation to Kenya

Jaime Royo-Olid is the European Commission Urban Development, Sustainable Transport and Digitalisation Senior Officer working at the European Union Delegation to Kenya where he is setting up a major New Urban Agenda implementation programme with the European Investment Bank (EIB), UN-Habitat, UNOPS, FAO and UNODC. Jaime was previously posted in Cape Verde (2006-2008), Eritrea (2009 to 2012), Sri Lanka (2012 to 2018) where he managed infrastructure programmes including housing and slum-upgrading. In Sri Lanka, for instance, he directed EU grant contributions for over 12,000 households to lead their own housing reconstruction with UN-Habitat, Habitat for Humanity and other NGOs. While a student, Jaime founded Architecture Sans Frontières (ASF)-Cambridge in 2001 that led to the establishment of ASF-UK in 2003. His development career began in 2004 as coordinator of ASF-International and volunteer with NGO Architecture & Développement with whom he led a post-tsunami housing reconstruction project in South India considered best practice by UNDP. In 2005, he also became research assistant on Sustainable Humane Habitat in Developing Contexts at the University of Cambridge. Royo-Olid holds a BA with Honours (2001) and Diploma in Architecture (2004) and an MPhil in Development Studies (2006) from the University of Cambridge (UK) involving exchanges with MIT's School of Planning (USA) and the Centre for Environmental Planning and Technology (CEPT) University's School of Planning and Policy, Ahmedabad (India). He is a specialist in Human Settlements by the Escuela Técnica Superior de Arquitectura de Madrid (ETSAM), Spain. He is also a PhD candidate in Development Studies at the University of Cambridge researching on the relationship between the financialisation of land and the scarcity of affordable adequate housing in metropolitan Odisha, India.
